CENTRUM QUALITY WITH YOU EVERY DAY

Modern and functional solutions
for the bathroom and kitchen.

WELCOME TO CENTRUM

B2B partner and manufacturer

PPHU CENTRUM is a Polish family-owned company specializing in plastics processing, established in 1985.

The company's core business is the production and sale of sanitary products. At our facilities, we manufacture washbasins, bathtubs, shower trays, and kitchen sinks.

With 40 years of experience in the industry and excellent technological know-how, CENTRUM has been a reliable partner and support for many renowned brands worldwide for years.

Business to Business. Since 1985

We are committed to stable, long-term cooperation focused on mutual benefits.

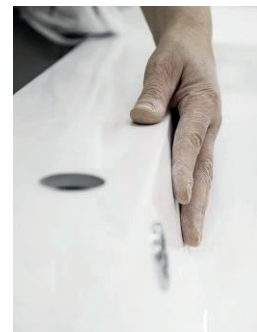

CENTRUM'S POTENTIAL

Strengths of the Centrum Group

- 40 years of business experience
- 5 modern factories in Poland
- 17 production lines
- 20,000 m² of production hall space
- 8,000 m² of warehouse space
- innovative technologies and materials
- in-house research and development department
- a wide range of products for bathrooms and kitchens
- a policy of long-term cooperation
- nearly 900 employees

Business to Business. Since 1985

CENTRUM'S MANAGEMENT

40 years of family business history

CENTRUM is a family-owned company with nearly 40 years of history, built with passion by three brothers—Henryk, Bogusław, and Rafał Popiel. Over these years, CENTRUM has evolved from a small workshop producing kayaks into a leading manufacturer of sanitary products in Poland.

Today, PPHU CENTRUM is a limited liability company with 100% Polish-owned capital. The brand now cooperates with over a hundred companies in Poland and abroad.

These include well-known manufacturer brands and the largest distribution networks, for which CENTRUM produces a wide range of high-quality sanitary products.

Business to Business. Since 1985

In addition to its core business of manufacturing, the COMPANY's portfolio also includes the following activities.

Hotel operations – Hotel BESKID****

In 2009, CENTRUM purchased Hotel Beskid in Nowy Sącz, marking the start of its hotel operations. Today, Hotel Beskid is a modern, luxurious, and fully equipped facility with extensive recreational and business-support amenities.

Tourism operations Boat Rafting in the Poprad Valley

Comprehensive organization of boat rafting trips amid the beautiful landscapes of the Beskid Sądecki region. Boat Rafting in the Poprad Valley, organized by CENTRUM since 2000, is highly popular and ranks among the region's greatest attractions.

Retail operations – Delikatesy Centrum

In 2000, CENTRUM partnered with Eurocash - a rapidly growing retail chain of grocery stores under the name Delikatesy Centrum - becoming the main franchisee in the Nowy Sącz area and its surroundings.

MISSION AND PRIORITIES

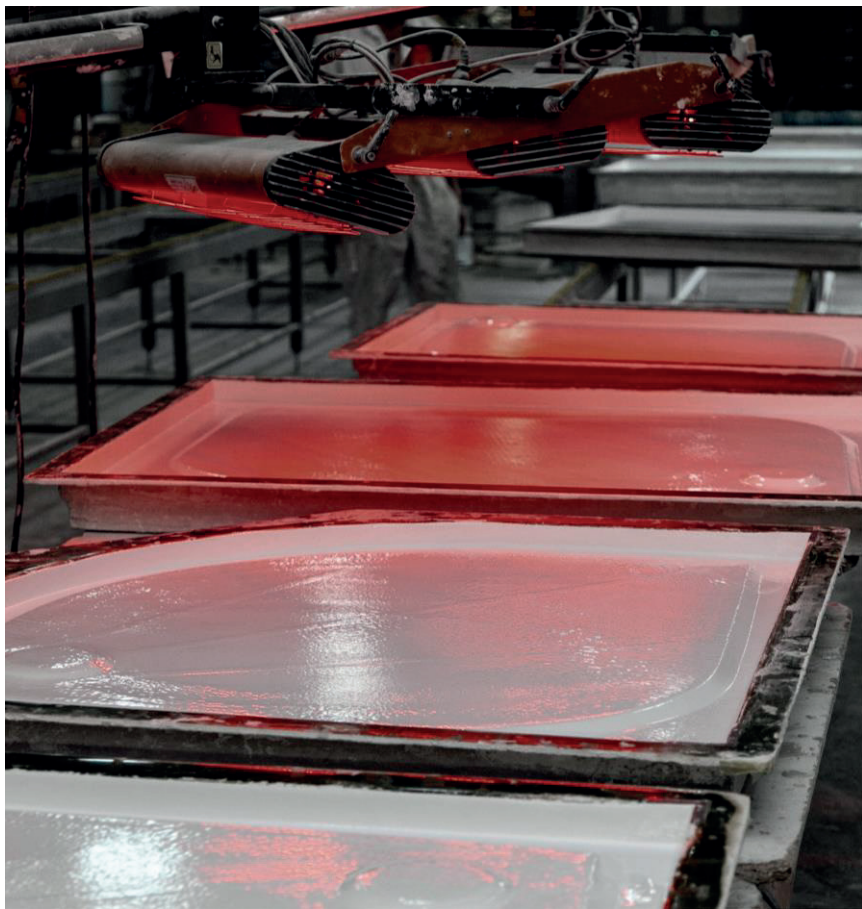

Our mission is to strengthen our market position in the design, production, and supply of plastic products. Our goal is to become the preferred supplier.

We aim to fulfill this mission by guaranteeing our customers high-quality, reliable products, by basing our production on experience and continuous innovation, and by offering cooperation of exceptional value.

Business to Business. Since 1985

PARTNERSHIP AND SHARED SUCCESS

Business to Business. Since 1985

Key success factors:

- **continuous development** – undertaking new forms of business activity, launching new facilities and production lines
- **innovative and environmentally friendly technologies**
- **modern design and a wide range of products for the sanitary sector**
- **perseverance and operational flexibility** – the ability to maintain a strong market position regardless of changing trends, the speed of responding to shifts in market tendencies, and the capacity to adjust the production profile depending on demand for plastic products

FACILITY LOCATIONS

A strong local brand

The company operates 5 production facilities located across the Małopolska and Podkarpacie regions.

Centrum sp. z o.o.

ul. Batorego 81, 33-300 Nowy Sącz

ul. Nabrzeżna 18, 33-335 Nawojowa

FACILITY NO. 5, NO. 6

ul. Mickiewicza 108, 38-200 Jasto

Business to Business. Since 1985

Our factories are located within short distances of one another, which greatly facilitates logistics and communication processes.

Business to Business. Since 1985

NO. 1 – NOWY SĄCZ

Thermoforming production of acrylic bathtub and shower tray mouldings.

NO. 2 – SKOŁYSZYN

Thermoforming department for bathtub and shower tray mouldings, reinforcement (lamination) and processing lines for mouldings, production of panels for bathtubs and shower trays, and a department for installing hydromassage systems in bathtubs.

NO. 3 – NAWOJOWA

Production of shower trays, washbasins, and bathtubs from marble conglomerate, production of acrylic products, thermoforming and lamination, and production of cardboard packaging for the products.

NO. 4 & NO. 5 – JASŁO

Production of marble conglomerate products, sinks and shower trays from granite conglomerate, washbasins and shower trays using combined conglomerate technology with an acrylic surface, and production of acrylic products - thermoforming and lamination.

FACILITIES AND EMPLOYMENT

Strong technical resources and human potential

At CENTRUM, people are the company's most important asset. They are a vital link in building its value, and their work is treated with due respect.

We are one of the largest employers in the region, with nearly 900 employees, around 650 of whom work at the plastics facilities. Our activities in the social sphere are one of the key elements of the company's long-term development strategy.

PRODUCTION CAPACITY AND HIGH EFFICIENCY

17 production lines
20,000 m² of production halls
8,000 m² of warehouse space

Production of sanitary products at approximately
917,000 units per year, comprising:

160,000 acrylic shower trays,
410,000 acrylic bathtubs,
105,000 panels,
212,000 conglomerate shower trays,
144,000 conglomerate washbasins,
53,000 conglomerate sinks

Business to Business. Since 1985

EXPORT STRUCTURE

New export markets

One of the company's strategic goals is to increase sales of top-quality, reliable Polish products in foreign markets.

Poland	Ukraine	Italy	USA
France	Estonia	Belarus,	Canada
Germany	Moldova	Belgium	Lithuania, Netherlands
Hungary	England	Romania	Denmark
Czech Republic	Ireland	Chile	Croatia
Slovakia,	Switzerland	Israel	United Arab Emirates
Latvia	Kazakhstan	Turkey	
Spain	Norway		

PRODUCT CREATION CENTER

We always strive to meet our customers' design challenges and find the optimal solutions for their implementation through:

- a wide range of shapes and models to choose from
- a versatile and elegant palette of colors and textures
- concrete and reliable cooperation

B2B PRODUCT DESIGN CENTER

CENTRUM - one of the most dynamic manufacturers of OEM products for many popular brands in the sanitary industry.

Our extensive product portfolio includes bathtubs, shower trays, washbasins, and sinks in various shapes, sizes, and specifications. Depending on the customer's needs, we can create short runs or mass-scale production.

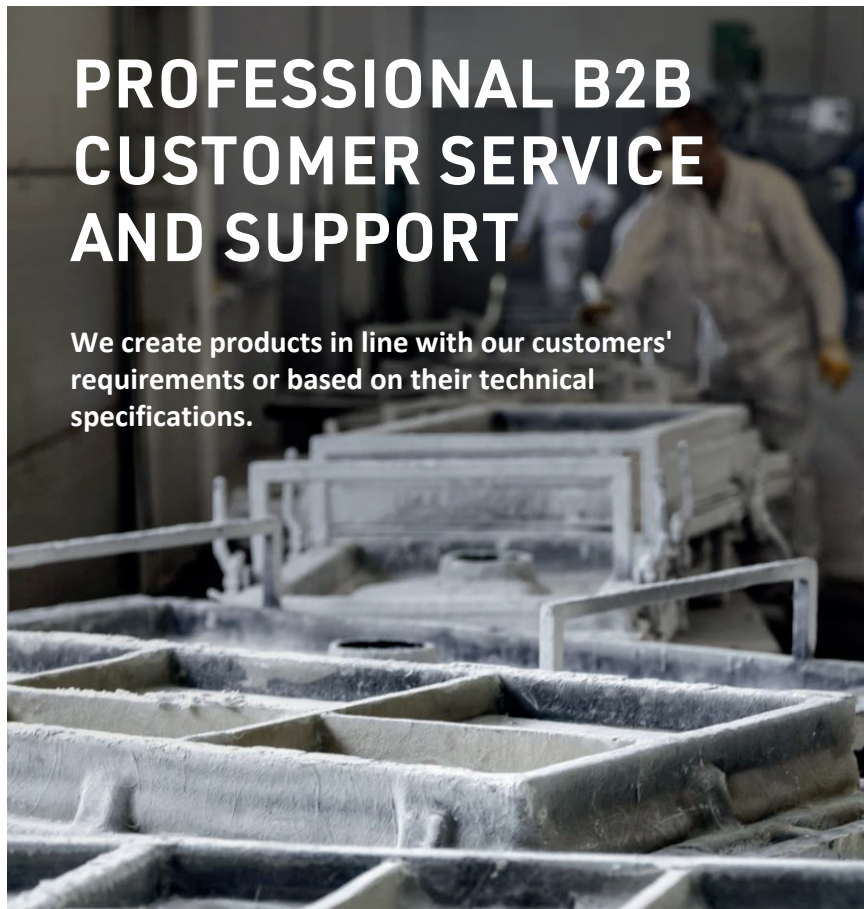

Business to Business. Since 1985

PROFESSIONAL B2B CUSTOMER SERVICE AND SUPPORT

We create products in line with our customers' requirements or based on their technical specifications.

Business to Business. Since 1985

MACHINERY PARK

**Automated production processes supported
by equipment and machinery**

- vacuum thermoforming machines
- casting machines
- composite spraying robots
- CNC machining center

At our facilities,
production processes
are based on the most
advanced technologies,
which guarantee the
highest product quality.

MODERN PRODUCTION LINES

The output of our production lines is approximately 12,000 units per month from a single production line.

EFFICIENT PRODUCTION

A fully automated washbasin production line

- in-house production of models and moulds
- fully automated dosing of raw materials from the manufacturer's packaging
- 600 μ -800 μ gelcoat coating resistant to scratches and UV
- seasoning and post-curing of products, enabling the production of items with 10 mm wall cross-sections
- 100% of products subjected to quality control
- full product traceability thanks to a modern production process support system – RFID

Business to Business. Since 1985

Depending on our customers' needs, we are able to fulfill orders for both large and smaller production batches.

Product identification is carried out using the RFID system – electronic support for the production process

Business to Business. Since 1985

QUALITY CONTROL AT ALL STAGES OF PRODUCTION

The quality and functional properties of the products are verified through factory production control at all stages of the production process, as well as a final inspection of every manufactured item.

QUALITY POLICY

Perfection in every detail

- CENTRUM's production efficiency, effectiveness, and quality are ensured by a certified quality management system in accordance with ISO 9001:2015-10
- products are manufactured in compliance with applicable European directives and standards
- the conformity of designed and manufactured products with technical standard requirements is tested in the in-house laboratory
- after detailed quality control, our products are refined and finished by hand
- compliance with standards is additionally verified through tests commissioned to accredited bodies

Business to Business. Since 1985

FROM DESIGN TO FINAL PRODUCTION

We place great emphasis on the development and continuous improvement of our products, and we value long-term customer relationships built on trust and professionalism.

Business to Business. Since 1985

DEVELOPMENT STRATEGY

Customer orientation

- long-term business relationships with customers
- development of new markets
- development of our own brand VAYER®, and active participation in creating and developing brands and collections for our customers
- creating and implementing modern products and forms for the sanitary products sector, as well as designing new solutions and their applications
- commitment to occupational health and safety and to the environment

THE JOURNEY FROM WAREHOUSE TO CUSTOMER

We have a modern transport fleet fully at our customers' disposal, ensuring timely deliveries both domestically and abroad.

- 14 semi-trailer trucks with trailers (24 tonnes)
- 5 trucks with trailers (19 tonnes)
- 40 passenger vehicles

WAREHOUSING AND LOGISTICS

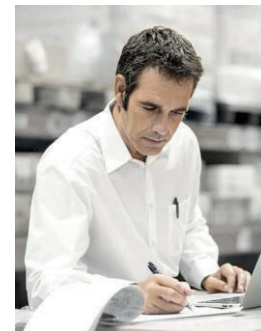

Efficient logistics services and excellent inventory management

We have over 8,000 m² of warehouse space. The new warehouses enable regular stock production for retail-chain customers.

Our warehouse logistics activities include, among others, storage, supply chain management, wrapping and securing, product distribution, and maintaining the best possible work organization within the hall.

Business to Business. Since 1985

SAFE TECHNOLOGY

The innovative technology of using nanosilver in production, developed and applied at our company, makes it possible to create any line of sanitary products with self-cleaning capabilities.

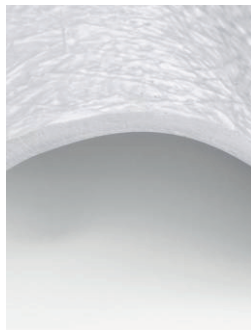

Business to Business. Since 1985

Business to Business. Since 1985

We continuously introduce a wide range of technological innovations with everyday comfort and safe use in mind.

MATERIALS

Technological innovations

Our products are made of the **highest-quality acrylic material reinforced with a polyester-glass composite**. This material is an excellent combination of user comfort and functionality. **Mineral marble** is a blend of quartz and dolomite bound with resin on recycled PET. The top layer is made of a gelcoat coating that protects the conglomerate against the negative effects of daily use.

Granite conglomerate is a combination of quartz fillers, synthetic resin, and additives. It has a uniform structure and exceptional durability.

Our latest achievements are an innovative technology for joining materials in an acrylic-conglomerate-acrylic layered system and a new material, **SOLID**.

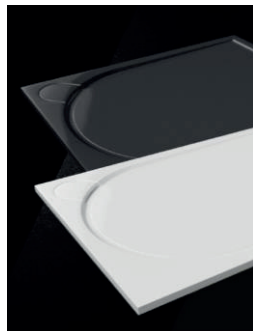

Business to Business. Since 1985

BATHTUBS

Made of acrylic material reinforced with a polyester-glass composite

SHOWER TRAYS

Made of acrylic material or marble conglomerate with an acrylic or antibacterial coating

WASHBASINS

Made of marble conglomerate with an antibacterial coating

SINKS

Made of granite conglomerate with an antibacterial coating

PRODUCT RANGE

A wide range of choices

Our offer includes a wide range of freestanding and built-in bathtub models, shower trays in various sizes and shapes, dozens of washbasin models, and an extensive collection of granite kitchen sink models.

Business to Business. Since 1985

PRODUCT RANGE

New products

In terms of new products, the highlights include monolithic freestanding acrylic bathtubs, cast-pressed shower trays made of lightweight composite, and bathtubs and washbasins made of the innovative, durable SOLID material. These products are characterized by modern design, durability, and ease of installation.

Regarding technological improvements and innovations, we are pleased to inform you that we are in the process of implementing a modern paint booth. This will allow us to paint all of our products in any color from the RAL palette, in either a gloss or matte finish, according to our customers' individual preferences.

CREATED FOR YOUR COMFORT

The VAYER® brand is a series of technological innovations designed with your health and everyday comfort of use in mind.

BRAND

Synergy of technology and beauty

VAYER® is an exceptional brand for which world-class technological solutions, previously unused by other manufacturers, have been developed. We continuously raise the standard and quality of our products by introducing further innovations, setting trends, and creating new, elegant collections. The most advanced technologies, combined with creative thinking, years of experience, and the precision of human hands, create exceptional products with truly unique advantages and properties, such as: self-cleaning, chromotherapy - an alternative form of treatment using light and color - or relaxing hydromassage. The VAYER® product collections represent a completely new dimension of comfort in your bathroom.

Business to Business. Since 1985

The inspiration for creating the VAYER® BUMERANG collection was provided by nature itself, full of countless diverse shapes and curved lines.

The freestanding VAYER® PURE bathtub is made from the highest-quality acrylic sheet reinforced with a blend of resin and ground volcanic stone known as amazonite.

Business to Business. Since 1985

WITH US, YOU WILL
FIND PEACE AND
RELAXATION FOR
BODY AND MIND

BRAND
ANGEL SPA™
YOU WILL FIND PEACE OF MIND

Immerse yourself in a world of luxury and relaxation

Angel Spa is a French brand established in 2004 with a focus on high-quality spa design for those who value luxury and discretion. After many years of experience in producing SPA bathtubs, the Angel Spa brand was sold in 2020 to a Polish company that has specialized in the production of acrylic bathtubs and jacuzzis for 39 years. This experience makes it possible to better tailor the quality of the spa models on offer.

Business to Business. Since 1985

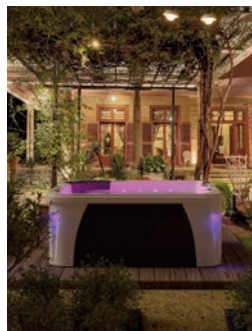

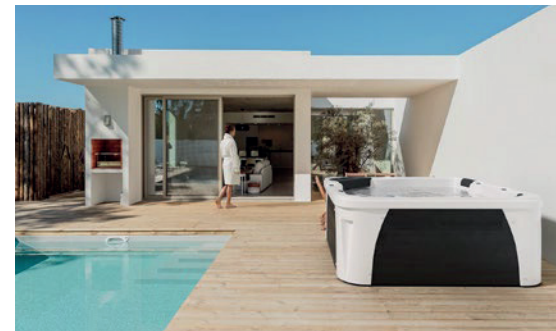

PPHU CENTRUM, as the new owner of the Angel Spa brand, has adapted the product to current trends and also changed the hydromassage systems, relying exclusively on European suppliers.

As Angel Spa, we offer you an exceptional product in service of your well-being. Our experience and ongoing cooperation with professionals allow us to offer you the best equipment on the SPA market.

Business to Business. Since 1985.

Thank you sincerely for your attention.
We encourage you to explore our wide
product range and invite you to mutual
and fruitful cooperation.
